A close-up photograph of a bartender in a dark suit and light-colored shirt pouring a clear liquid from a green bottle into a small, clear glass. The bartender is using a precision pourer, a metal device with a long, tapered spout that fits into the bottle's opening. The liquid is captured in a thin, controlled stream. The background is dark and out of focus, showing another person's arm and a glass on a bar counter.

POURING

GAIN POURING PRECISION THROUGH FLOW CONTROL

Über's™ patented pour designs provide greater liquid flow control to ensure drinks accuracy and flavour balance.

A close-up photograph of a person's hands pouring a golden-brown liquid from a shaker into a glass filled with ice. The person is wearing a dark blue top and a white beaded bracelet. A brass-colored strainer is held over the glass to catch any solids. In the foreground, there is a glass filled with ice cubes and a bottle of dark liquid on a wooden surface.

STRAINING

STRAINERS DESIGNED FOR PRECISION AND CONTROL

Beautiful cocktails are enhanced when pips, peels, spices, and ice shards are kept in the shaker. Usually a single strain will suffice, however, sometimes a double strain is required.

A bartender wearing a grey t-shirt and a watch is shaking a silver cocktail shaker. The shaker is tilted, and a green liquid is visible inside. The background shows a kitchen counter with various items.

SHAKING

THE SHAKER IS AT THE HEART OF COCKTAIL CREATION

Shaking and agitating liquids allowing for aeration, dilution and rapid chill down requires a lot of force! The cocktail shaker is the vessel where the cocktail comes together in the hands of a bartender.

STIRRING

A close-up photograph of a bartender's hands stirring a drink in a glass. The bartender is wearing a white shirt and a black vest. The background is blurred, showing a bar setting with various bottles and lights. The text 'STIRRING' is overlaid at the top in a white, bold, sans-serif font.

THERE IS AN ART TO THE STIRRED COCKTAIL

Stirring is the gentle technique of combining spirits and mixers into something greater. Integrating the ingredients by stirring the delicate flavours together is an essential element when making Martinis.

SWIZZLE STICK

Antonio Lai

QUINARY

THE
WORLD'S
50
BEST
BARS
2017

A SWIZZ™

Antonio Lai: noted bartender, entrepreneur and innovator started his journey as a bar-back in the early 90's.

Fast forward to today where Antonio runs a bar empire whose jewel is the much loved and critically acclaimed Quinary (World's 50 Best Bars), famed for its Earl Grey Caviar Martini!

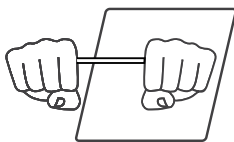

In the true spirit of collaboration Antonio and Überbartools™ have re-imagined the traditional swizzle stick, creating the A-Swizz™.

Featuring an inspired lotus leaf design reminiscent of an aeroplane propeller, the A-Swizz™ churns and mixes liquids with minimal effort and maximum joy.

BITTER BOTTLES

A close-up photograph of a person wearing a white button-down shirt. The person is holding a small glass bottle with a yellowish liquid inside and a silver dropper. They are using the dropper to add liquid to a large, clear glass filled with whiskey and ice cubes. The background is slightly blurred, showing the person's torso and the texture of the shirt.

A close-up photograph of a bartender's hands. The bartender is wearing a dark uniform and has long blonde hair. They are using a silver metal julep strainer to hold a metal mesh strainer over a clear martini glass. A clear liquid is being poured from a silver metal pitcher through the julep strainer into the mesh strainer, and then into the glass. The background is a plain, light-colored wall.
